

Corrigendum: Cooper et al, Subtotal Gastrectomy as “Last Resort” Consideration in the Management of Refractory Rumination Syndrome

Chad J. Cooper^{a, c}, Salman Otoukesh^a, Mona Mojtahedzadeh^b, Juan M. Galvis^a, Richard W. McCallum^a

Corrections to article “Subtotal Gastrectomy as “Last Resort” Consideration in the Management of Refractory Rumination Syndrome”, by Chad J. Cooper et al, published in Vol. 7, No. 3-4, 2014, p98-101, doi: <http://dx.doi.org/10.14740/gr594w>.

The authors would like to make the following corrections.

In Abstract section, the sentence “On subsequent follow-up visits over a 6-month course, the refractory nausea and vomiting had resolved by more than 85% with and improvement in her BMI and quality of life.” should read “On subsequent follow-up visits over a 4-month course, the refractory nausea and vomiting had resolved by more than 70% with and improvement in her nutritional status and quality of life.”

In the last paragraph of Case Report section, the sentence “On subsequent follow-up visits over a 6-month course, the refractory nausea and vomiting had resolved by more than 85% with and improvement in her BMI and quality of life.” should read “On subsequent follow-up visits over a 4-month course, the refractory nausea and vomiting had resolved by more than 70% with and improvement in her nutritional status and quality of life.”
